

18TH-20TH APRIL 2024

Chapter 9

COMPETENCY IN PHLEBOLOGY

A deep dive into veins

Focus on

Relationship between superficial
and deep veins.

Bail-out techniques in complex
deep vein reconstruction.

INNOVATIVE CLUB

Str. Sant'Anna, 116 | 41122 Modena - Italy

COMPETENCY IN PHLEBOLOGY - CHAPTER 9 - A DEEP DIVE INTO VEINS

Course Director

Marzia Lugli

Presidents

Oscar Maleti

Mauro Gargiulo

Organized by:

Under the auspice of:

Italian National Reference Training
Center in Phlebology NRTCP
Hesperia Hospital (Modena, Italy)

Faculty

Abbadie Fabrice | Vichy Cédex (France)

Avgerinos Efthimios | Athens (Greece)

Baccellieri Domenico | Milan (Italy)

Bazzan Mario | Turin (Italy)

Bergamo Giorgio | Padua (Italy)

Carrafiello Gianpaolo | Milan (Italy)

Corvino Fabio | Naples (Italy)

Dumantepe Mert | Istanbul (Turkey)

Faggioli Gianluca | Bologna (Italy)

Fresa Marco | Lausanne (Switzerland)

Fronterré Sara | Modena (Italy)

Gargiulo Mauro | Bologna (Italy)

Hartung Olivier | Marseille (France)

Hoshino Yuji | Fukuoka (Japan)

Jaff Michael | Delray Beach (USA)

Jalaie Hومان | Maastricht (Netherlands)

Justaniah Almamoon | Jeddah (Saudi Arabia)

Lugli Marzia | Modena (Italy)

Maleti Oscar | Modena (Italy)

Mazzolai Lucia | Lausanne (Switzerland)

Nichele Ilaria | Vicenza (Italy)

O'Sullivan Gerry | Galway (Ireland)

Rampoldi Antonio | Milan (Italy)

Rossi Francesca | Modena (Italy)

Santoliquido Angelo | Rome (Italy)

Savio Daniele | Turin (Italy)

Silva Sergio | Lisbon (Portugal)

Schlager Olivier | Vienna (Austria)

Varcoe Ramon | Sydney (Australia)

Visonà Adriana | Treviso (Italy)

COMPETENCY IN PHLEBOLOGY - CHAPTER 9 - A DEEP DIVE INTO VEINS

SESSIONS

Session 1	Thursday 18 April 14.00 - 18.30	Early Thrombus Removal
Session 2	Friday 19 April 09.00 - 13.00	Vein hemodynamics Deep vein surgery
Session 3	Friday 19 April 14.30 - 18.00	Primary obstruction and pelvic reflux
Session 4	Saturday 20 April 09.00 - 13.00	Secondary obstruction

THURSDAY 18TH APRIL 2024

14:00

Welcome

M. Lugli, O. Maleti, M. Gargiulo

14:15 - 18:30

SESSION 1 - EARLY THROMBUS REMOVAL

Chairs: G. Carrafiello, A. Santoliquido, A. Visonà

14:15

Overview

S. Fronterre

14:30

Lecture

Are guidelines really helpful in selecting patients for ETR?

L. Mazzolai

14:45

Burden of DVT disease

A. Santoliquido

15:00 - 15:35

ETR: how-to-do-it video session

- ▶ Angiojet | M. Dumantepe
- ▶ Aspirex | M. Fresa
- ▶ Clot/Flowtriever | E. Avgerinos
- ▶ Ekos PE | A. Rampoldi
- ▶ Ekos Peripheral | F. Rossi
- ▶ Indigo | D. Baccellieri
- ▶ DVT imaging | D. Savio

NO CME

THURSDAY 18TH APRIL 2024

15:35

Round table: questions to be answered

- Which device for which case?
- Is there still a place for CDT
- How do we determine the duration of the DVT?
- Stenting after ETR: never/sometimes/ever
- Do we need different ETR devices?

16:00

Coffee break

16:30 : 17:30

Critical Issues

16:30

PE as a complication of ETR procedures

A. Rampoldi

16:40

Access complications: how to avoid them

E. Avgerinos

16:50

Coagulation management

I. Nichele

17:00

IVUS: the role in acute cases

S. Fronterré

17:10

How to evaluate procedural success

M. Dumantepe

17:20

Who are the "untouchable" patients

M. Lugli

THURSDAY 18TH APRIL 2024

17:30

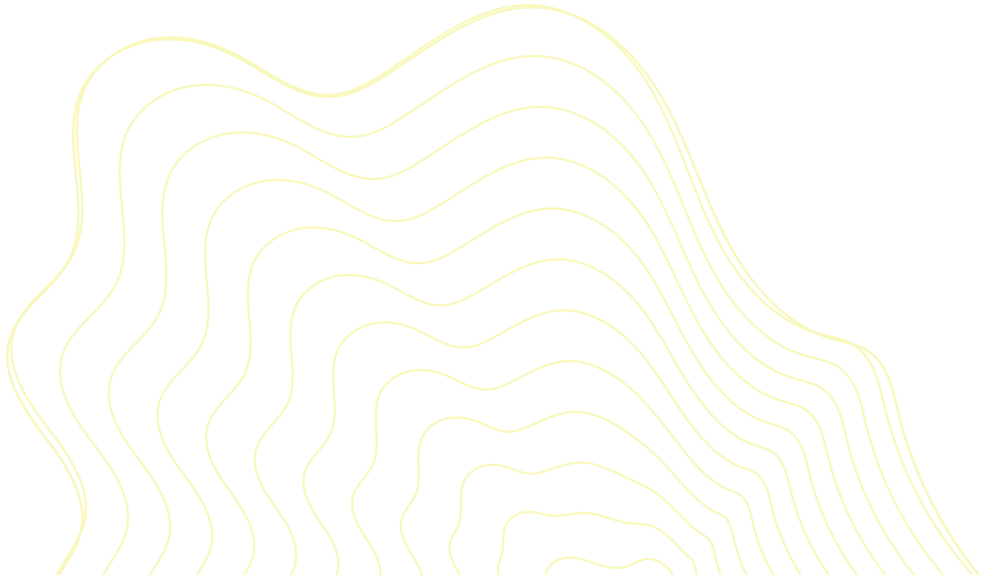

Round table: questions to be answered

- From acute to not-so-acute DVT: treatment timing
- Cava filter: never/sometimes/ever
- Which fibrinolytic agent?
- Correlation between clinical picture and DVT entity
- Treatment protocols: time to standardize

18:30

End of the day

FRIDAY 19TH APRIL 2024

9:00 - 13:00

SESSION 2 - VEIN HEMODYNAMICS
- DEEP VEIN SURGERY FOR REFLUX AND OBSTRUCTION

Chairs: O.Maleti, Y. Hoshino, G. Faggioli

9:00

Overview

M. Lugli

9:10

Lecture

Deep venous disorders: just a matter of volumes?

O. Maleti

9:30

Plethysmography: venous volume change during ambulation

S. Fronterre

9:40

Wi-Fi plethysmography how-to-do-it

G. Bergamo

10:10

Imaging in deep reflux

O. Hartung

10:20

Patient selection for DVS, postoperative care, complication management and follow up

H. Jalaie

10:30

Coffee break

FRIDAY 19TH APRIL 2024

11:00-11:50

How-to-do-it

11:00

Valvuloplasty

S. Silva

11:10

Neovalve

Y. Hoshino

11:20

Endophlebectomy

H. Jalaie

11:30

Hybrid surgery

M. Lugli

11:40

Endovascular options in valve reconstruction

R. Varcoe

11:50

Popliteal venous aneurysms

F. Rossi

12:00

Round table: questions to be answered

- Is it important to evaluate outflow proximal resistance?
- Is Ambulatory Venous Pressure still meaningful?
- How does a neovalve work?
- AVF during endophlebectomy: yes or no?
- Should popliteal aneurysms be removed or is anticoagulation sufficient?
- What is the role for open surgery in the future?

13:00

Lunch time

FRIDAY 19TH APRIL 2024

14:30 - 18:30

SESSION 3 - PRIMARY OBSTRUCTION AND PELVIC REFLUX

Chairs: O. Schlager, O. Hartung, R. Niola

14:30

Primary obstruction: overview

O. Hartung

14:40

Lecture

Primary obstruction: from under to over estimation of the disease?

O. Schlager

14:50

Algorithm of investigation for primary obstruction

D. Baccellieri

14:55

NIVLs treatment step- by- step

S. Fronterre

15:00

Different anatomies of the iliac confluence and treatment implications

M. Lugli

15:05

Nutcracker is a NIVL too

O. Hartung

15:10

IVUS assessment of May-Thurner

M. Fresa

15:20

NIVLs and varicose veins: treatment timing and technical best options

F. Abbadie

FRIDAY 19TH APRIL 2024

15:30

Round table: questions to be answered

- Which stent in May-Thurner?
- Is IVUS mandatory?
- Anticoagulant therapy after NIVL stenting
- Edema and May-Thurner

16:00

Coffee break

16:30

Pelvic reflux and pelvic syndrome: overview

O. Schlager

16:40

Pelvic anatomy: understanding what is reflux and what is normal

F. Corvino

16:50

Techniques and agents for pelvic embolization

A. Justaniah

17:00

US assessment, Imaging comparison

D. Savio

FRIDAY 19TH APRIL 2024

17:10

Algorithm of investigation and treatment

E. Avgerinos

17:20

Pelvic reflux and varicose veins: treatment timing and technical best options

M. Dumantepe

17:30

Round table: questions to be answered

- Are results after pelvic embolization satisfactory?
- Is US sufficient to treatment?
- Primary and secondary pelvic reflux
- Which technique should we use in which case?
- What is the recurrence rate and is it acceptable?

18:30

End of the day

SATURDAY 20TH APRIL 2024

9:00 - 13:00

SESSION 4 - SECONDARY OBSTRUCTION

Chairs: M. Bazzan, M. Lugli, G. O'Sullivan

9:00

Overview

M. Lugli

9:10

Lecture

The uncharted frontier in vascular medicine

M. Jaff

9:20

Burden of PTS disease

A. Santoliquido

9:30

Critical issues in PTS treatment

9:30

Superior cava system obstruction

A. Justaniah

9:40

Cava confluence management

H. Jalaie

9:50

Stenting in oncology patients

G. O'Sullivan

10:00

The inflow

M. Lugli

10:10

PTS and varicose veins: treatment timing and technical best options

H. Jalaie

SATURDAY 20TH APRIL 2024

10:20

Coagulation management and long-term therapy

M. Bazzan

10:30

Issues in building up a DVS centre

M. Fresa

10:40

Round table: questions to be answered

- Which parameters to be detected during PTS assessment

11:00

Coffee break

11:15

Venous stents on the market and ongoing trials

- ▶ Abre
- ▶ Venovo
- ▶ Zilver
- ▶ Blueflow
- ▶ Optimed
- ▶ Viafort
- ▶ Bentley
- ▶ Wallstent

NO CME

SATURDAY 20TH APRIL 2024

12:00

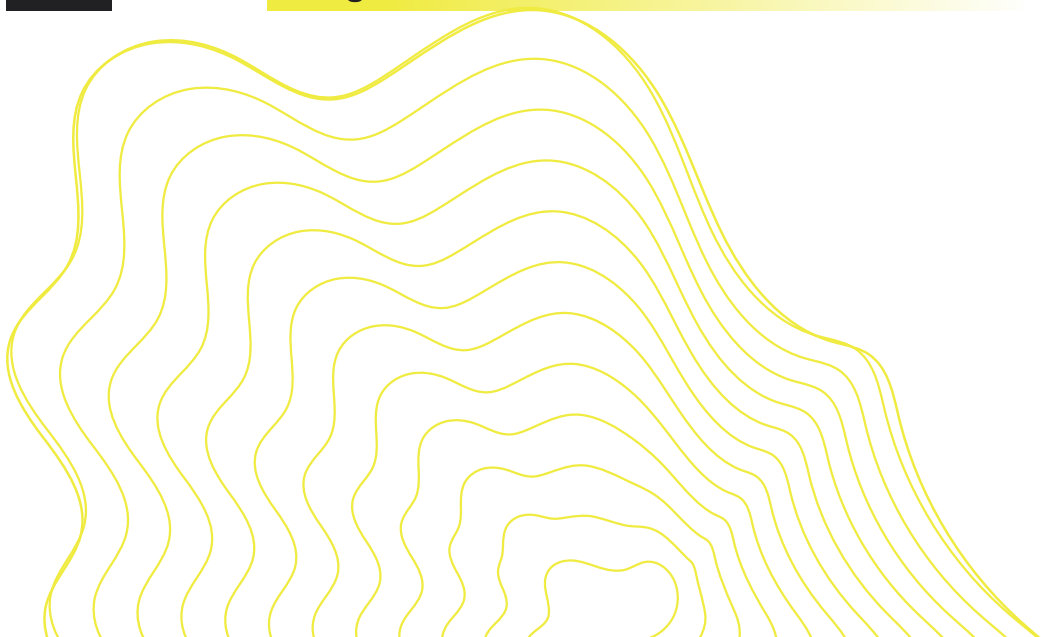

Round table: questions to be answered

- Which stent in which case
- Do we need a different stent?
- What do we require of a venous stent?
- Is a good outcome determined by the chosen stent?
- Stent cost/benefit and economic issues

13:00

Closing remarks

GENERAL INFORMATION

REGISTRATION FEE

€ 300,00 SIRS Members

€ 420,00 About Veins Society Members (subscription available on-site or on the link)

€ 408,00 Collprimvasc members

€ 680,00 Non Members

FOR RESIDENTS IS FREE

REGISTRATION DETAILS:

For foreign participants please click the following link:

<https://www.womlab.com/evento/chapter-9-competency-in-phlebology/>

For Italian participants please click the following link:

<https://trainingecm.womlab.com//event/150/showCard>

THE REGISTRATION FEE INCLUDES:

- CME credits
- Coffee break - lunch (not included for residents)
- Congress kit
- Certificate of attendance

CANCELLATION POLICY

No refunds for requests after 1 April and for no-shows.

METHOD OF PAYMENT

Contextually to the registration on the platform.

Registrations will be considered valid only with payment.

GENERAL INFORMATION

CME EVENT

EVENT ID: 385904

Provider ID: 4596

CREDITS: 12

ACCREDITED ROLES

Vascular surgery, General surgery, Radiology, Cardiology, Cardiac Surgery, Anesthesia and intensive care, Dermatology, Nurses, Perfusionists, Radiology technicians.

RECORD OF ATTENDANCE

Participants will be provided with an electronic badge which will be authenticated when entering and leaving, since you will need at least a 90% attendance of the total hours in order to access the CME questionnaire.

VERIFICATION METHOD

You need to complete the assessment test and the satisfaction questionnaire (made of multiple-choice questions and available online) within three days after the end of the event, by making a singular completion of the questionnaire on the platform www.trainingecm.com

A positive outcome of the assessment test will ensure you the reception of the CME certification within 90 days after the end of the event, as expected by law on CME.

CERTIFICATE OF ATTENDANCE

You will receive your certificate within one week after the end of the event.

EUROPEAN COMPETENCY DEGREE CREDITS - CDP 1-2 - CDPP5

The Course is accredited for n. TBD European Competency Degree Credits.
