A Practical Guide to the treatment of complex and urgent aortic aneurysm: Step-by step

Duration: 4.30 - 7.30 PM (GMT +2)

Agenda:

1. Introduction

- Welcome and Overview
- Brief Introduction to PMEG - Indications

2. LIVE in the Box Case Analysis

- Conducted by Dr. Benjamin Starnes
- Step-by-step analysis of a TREGO (Terumo Aortic) case
 - Sizing the Endograft
 - Planning Techniques with Emphasis on 3D Printing
 - Fenestration Procedure
 - Resheathing the Device
 - Detailed Procedure Step-by-Step
- Q&A session

3. Other solution

- **N. Tsilimparis** "Results from multicentre study on PMG for thoracoabdominal and complex repair
- **M. Piazza** "A standardized approach to 4fenPMEG for complex AAA"
- Q&A session

4. The Importance of a consensus on treatment for complex and urgent aortic aneurysm

- Intro (G. Prouse et al) of a Delphi Consensus
- Discussion
- Q&A session

5. Conclusions

- Recap of key points
- Acknowledgments and Future Perspectives

Note: Ensure a balanced mix of video presentation and interactive elements. Encourage active participation and engagement from the audience. Consider incorporating live demonstrations to enhance understanding. The goal is to create an informative and collaborative learning experience for all participants.
